

Power that Lasts

New customer services

With recent plant expansion, Dyna-Drill offers more than 80,000 sq. ft. of additional design, production and testing capabilities, a near doubling of facilities and available processes.

Problem solving expertise

Dyna-Drill career professionals with extensive machining experience provide specialized, often innovative solutions that focus on long, reliable performance.

Advanced technologies

Production engineers, teamed with cutting-edge computerized machining tools, ensure made-to-order components and assemblies with exacting, made-to-order tolerances.

100% inspections

Integral to Total Quality Practices, Dyna-Drill conducts 100% final inspections, so many customers can forego testing of incoming components.

Timely deliveries

When requested, Dyna-Drill will maintain inventories of finished components, ready for JIT shipment.

CNC Machining Center

1997 Nicolas Correa L-30

- Vertical and Horizontal machining capability
- With 4th axis, 24" chuck with 10 1/2" thru hole
- 169" X axis travel
- 47" Y axis travel
- 49" Z axis travel
- 240" x 42" table dimension
- A rotation 90 degrees, 2.5 degree incremental
- B rotation 180 degrees, 2.5 degree incremental
- 12.2 LNS/Autoblock steady rest
- Heidenhein control
